MILWAUKEE, Wis., April 27 .- Milwaukee paid a last tribute of esteem and respect to the memory of Alexander Mitchell to-day. Business was generally suspended, thousands of flags floated at half mast, and many public and private buildings and a large number of residences were more or less draped in mourning. For two hours prior to the vices the remains, which were enclosed in a cloth covered casket, lay in state in St. James church, and were viewed by a continuous stream of people, many of whom anifested deep emotion.

RIOT IN OHIO. Reservoir Blown Up

Dynamite. COLUMBUS, O., April 27.—The long expected outbreak over the Paulding reservoir began last evening. The following telegram which reached Governor Foraker to-day explains the situation:
"Two hundred men marched to the canal

in a body, captured the guards and held them in confinement until daylight. They worked all night on the front and rear of the resorwater out. Then they poured coal oil on the lock and the keeper's house, burning it up. One hundred more men went to Tate's and the other remaining lock, burning them up with dynamite. No locks remain on the Wabash canal, and mob law reigns suprema. The people of Defiance and Paulding Counties call on you to protect State property.
"E. SQUIRE."

Another telegram from Deflance, signed by C. A. Flickinger, conveyed the same in-formation and asked protection. Similar telegrams came from Frank Eagle and L. B. Peaslee, the latter saying that effective measures should be taken to preserve the state property and the public peace. Govsmor Foraker at once took cognisance of the matter, and there was a consultation with the war department. Adjt. Gen. Axline was telegraphed, and is on his way to the seat of war. The Henry county militia has been orderd to Defiance at once, and are now getting their guns in order. Other companies of Toledo and the immediate vicinity have been ordered to be in readiness.

The governor has issued the following prodamation: "Now, therefore, I, Joseph B. Foraker, governor of Onio, do hereby call upon all said rioting and evil disposed persons, to desist at once from their unlawful actions, and to disperse immediately to their homes; and I hereby warn them that failing to do so, they will be immediately compelled to such a course, so far as the protection, repair and preservation of public property of the state is concerned. All persons failing to observe and comply with the commands beroof will do so at their peril."

Telegrams were sent to C. A. Flickinger and others conveying the information that troops had been sent to aid the civil authori-

The sheriff of Paulding county was reruested to make an official demand for help. Flickinger was ordered to at once begin repairs, and to warn all disturbers that they interfere at their peril.

The Paulding reservoir trouble is of long standing. The Paulding county people con-tend that it is a nuisance, and the Geyer bill of last winter to sell it caused a tremendous racket, involving the entire canal

There were repeated threats by Paulding people that they would destroy the reservoir with dynamite, and they have made their threat good. However there is now no fear of any serious outbreak from now on.

Government Distribution of Trout. Pritishurg, April 27.—The fish commis-tion's special car No. 2 passed through the city this morning en route to Washington City. It was in charge of G. H. H. Moore, who has just completed his first trip of the year through Michigan. The car was sent to the hatchery at Northville, Mich., last January. A large number of California and like trout were collected and distributed throughout Onio, Indiana and Michigan and the finest trout that have yet been distributed by the commission. There were between 10,000 and 12,000 of them, which represent 100,000 eggs, showing how difficult it is to raise the trout ready for distribution A large number of white fish also were distributed in Lake Erie, Ontario and Michizan.

A RAVING MANIAC'S DEED.

HE ATTEMPTS TO MURDER HIS WIFE AND CHILD.

Failing to Fully Accomplish the Brutal Act, He Nearly Severs His Head With a Butcher Kulfe-A Similar Crime Com-

mitted in the Same Vicinity Recalled. CINCINNATI, April 27 .- The sight of a voman leaning from the second story window of No. 618 Sycamore street, with the blood flowing from two gashes in her head this morning at 5 o'clock, conveyed to the horrorstricken neighbors but a slight idea of the terrible tragedy which had been enacted within, and the still more terrible one which had been attempted at the same time, but which fortunately failed. The house in question is a two story frame, situated directly under the shadow of the hill, on the side of which, in full view, stands the house on Walker trestin which the terrible murder of his defenseless wife by the brutal Pat. Hartnets was commisted but a few years ago. Here has resided for several years Henry Heils, aged thirty, with his wife and two children, aged three and five years.

Last summer Heile began to show signs of softening of the brain, and grew so bad that be lost his situation. His father sent him to Michigan with his brother, where, after spending a couple of mouths in traveling, he returned to any city, apparently greatly im-proved in much and health. He soon lapsed into his old spells of mental derangement and at times caused his wife and family grave apprehensions as to their safety. This morning at 4:30 Mrs. Helle was

aroused by the peculiar actions of her husband, who was pacing the bedroom floor in an agitated manner. He appeared to be seeking something. She sought to calm him, but her eiforts only appeared to infuriate him, and render him a raving maniac. He pushed her violently to one side and glared at her with flery eyeballs, like a wild beast. Remembering only the danger of her two little ones, one of whom was lying asleep on the lounge in the room, the brave little man continued her persuasions to get him back to bed. He flung her aside again, and rushing to the corner of the room, picked up s hatchet and proceeded to knock the furniture about with it. The poor woman made an effort to reach

her sleeping child and carry it in safety beyond the reach of its cruzed father. He chased her from the room, however, and turned toward the child. She rushed in and tried to grasp his arm, but he was too strong for her, and aiming a marderous blow at her head the weapon striking the back of the head, cutting the scalp open to the skull' from which the blood spurted out. She staggered and was about to fall, when he, probably imagining he had done his work thoroughly, turned to the sleeping child and raised the hatchet above its innocent head as if about to strike it. With a scream, the mother, forgetting her own danger, threw herself beneath the descending weapon with her arms raised to protect herself as best she could. The edge of the hatchet struck her on the top of the head, and would have split her skull wide open had not her arm broken the force of the blow, as it received the handle of the hatchet across her wrist. As saved her from instant death.

Throwing open the window above the sofa on which the child reposed Mrs. Heile screamed for help. Her screams appear to have aroused Helle to his senses somewhat. He hesitated, dropped the hatchet and fled to the kitchen, appearing in the bedroom a moment later with a huge bread or butcher knife in his hand. Without offering his wife further violence he draw the keen blade across his throat and with a quick movement nearly sawed his head from his body, and fell to the floor with the blood gushing in torrents from the awful wound, just as father-in-law, Mr. Meyers, who had been attracted by the screaming of his wife, peared. At the sight of her father Mrs Heile swooned and was carried to his apartnents. When Mr. Meyers returned to the room Heile was a corpse.

Coroner Rendigs was called and viewed the remains. He also examined Mrs. Heile's injuries, and pronounced them not neces sarily fatal of themselves, but regards her condition as dangerous because vanced pregnancy. "The suicide has several brothers in the feed business on Water and Walnut streets.

The attempted murder of Mrs. Heile ears a striking similarity to that mitted by Hartnett, who, while laboring under a spell of insane jealousy, murdered his wife with an ax in a house just one square up the side of the hill back of Heile's residence, and at precisely the same hour of the morning, and also in the presence of his children. Hartnett, however, made no attempt at suicide but was captured and hung

The building, af considerable property. The building, which is a four story one and the largest in the neighborhood, is used as a grocery by Charles, John and George Willis. They and their mother and some roomers occupy the

At once she alar med the inmates and at the same time people on the outside discovered the fire and gave the alarm. The flames spread rapidly, and before the engines arrived had gaine d great headway. The heads of the trightened women were enveloped in cloths, and they were carried out all uninjured, ex-sept Sophie Boles. She could not be found, and almost from the first was looked upon as

One of the most appalling incidents of the fire was the jumping off by two of the people from the building while the firemen were lighting their way up stairs, and an awostruck grawd stood on the streets gazing up at the burning building. William Eberman appeared at the window on the third floor. He was too far gone to shout, but he was seen, and the crowd yelled to him to hold on. A ladder went up and a man hastily started to help the authoring man. When the res-mer half received the second floor Eberman was seen to farch forward and then come lown with a rush. Whether he fell or jumped could not be told, the movement was so quick. He fell on his head and shoulders and was placed up unconscious.

BETRAYED THE GANG. A Desperado's Death Discloses a Diabolical Plot.

GALVESTON, Tex., April 27 .- A special to the News from Laredo, says: Marailano Garver was shot and killed here yesterday morning by Theodore Sandus. An investigation of the killing developed a conspiracy to commit one of the most daring robberies ever attempted in Texas, the robbery of the Milmon National bank. The bank officials had reseived information that an organized band of men, composed of Americans and Maxi-cans, had concerted a plan to rob the bank on the afternoon of April 18, at 3 o'clock. Two of the gang were to enter the bank. One of them was to present a check to the teller, and when that official looked at it was to level a pistol at his head, with the command, "Hands up! Be silent!" His confederate was then to enter through the president's room and rob the vault.

In the mean time five others of the gang were to ride up, leading two saddled horses for the use of their friends in the bank, which the latter were to mount, after having so cured the booty, and ride away, protected by the other five men. Every day since the bank was notified it has been secretly guarded by a determined posse of deputy sheriffs. Yesterday Jesus Perez, Franciscen Ramons and Manuel Alquita were arrested on a charge of being implicated in a plot to rob the bank. Subsequently Henry Barnard, the leader, was arrested on a train between here and San Antonio and was brought to

this city and lodged in jail. I now appears from the statement of Theodore Sandus, the slayer of Gariver, that they were members of the gang, and that all the members had taken a solemn oath not to divulge the purpose of the organization under the penalty of death. Gariver having accused Sandus of betraying the gang, the latter shot him. Sandus, however, claims that the deceased attacked him with a bowie knife, and that the shooting was done in selfdefense. Bernard, who is highly connected, attacked two others of the gang who were confined in the jail with him last night with a knife he had concealed in his person and cut and dangerously wounded them. He accuses them of "squealing." It is thought one of them will die.

of Power to Be Seized and the Goperament Overthrown-Private Titles to Lands to Be Abolished-Rents to Be Umknown and Record Books Burned.

CHICAGO, April 27 .- A few days ago the United Press contained a report about a projected combination of the three principal Socialistic organizations in this country—the Red Internationalists, the Black Internationalists, and the Socialistic Labor party. While the aims of the last two mencioned are widely known, but little is generally known of the Red International, or International Workmens' association. This association was founded in San Francisco in 1885, and is said to be well organized in all the principal cities throughout the western states.

It is announced in documents furnished their members that an uprising is expected in 1889. The document says the present crisis will approach a climax, but continues: "The time is not yet ripe for success. To strike this year would be to uselessly slaughter our best people and put back the cause one hundrad years. We must take advantage of it for agitation and education only. We must speak much and act not at all. One year of panic means a tripling of our forces at the very least. And while, with our present 100,000 American Socialists, forcible action is impossible, with 400,000 (which the next panic will give us if we manage wisely), we hold the game in our own hands.

"We have perhaps until 1889 in which to perfect our plans. That year in Europe will surely bring grave results. In America, if figures lie not, another panic greater, desper and more widespread than the preceding will be upon us. Then, and not till then, may we risk a cast of the iron dice. Then we may trike and strike to win. The probabilities are in favor of our having in 1839 in the United States at least half a million earnest Socialists. The panic comes, the public is sxcited, outbreaks occur, the large centers revolt, the places where but a few Socialists exist are made points for rallying of the conservative elements. In these small places it should be made the duty of the Bosalists there presiding secretly and with all the aid of science in destructive warfare, to mise sufficient turmoil to keep the Conservative busy at home. Meanwhile in large conters bold measures should be taken. Our people should head, lead and control the popular revolt; should seize the places of power should lay hands upon the machinery of
